EXAMINER'S REASONS FOR ALLOWANCE

1. Claims 1, 3, 6-16, and 18-25 are allowed.
2. Claims 1, 3, 6-16 and 18-25 have been renumbered 1-21, respectively.
3. The following is an examiner's statement of reasons for allowance: independent claims 1 and 15 have been amended by Applicant and now incorporate the limitations of claims 5 and 17, respectively. Claims 5-7 and 17-19 were previously rejected under 35 USC § 103 as being obvious over U.S. Patent No. 5,888,454 to Leistner in view of U.S. Patent No. 5,445,794 to Wihlborg. Applicant's arguments with respect to this rejection have been reviewed by the Examiner and deemed persuasive. Leistner appears to be the closest prior art. However, there would have been no motivation to further modify Leistner to include a housing having the claimed inlet and outlet door assemblies which permit the passage of a receptacle vessel in open positions and control the entry of ambient light into the housing in closed positions. While, Wihlborg discloses an alternative means for shielding sample vessels from external light, which is nothing more than a closeable measuring chamber, the Examiner agrees that the skilled artisan would not have viewed the closeable measuring chamber of Wihlborg as anything more than an alternative to the means disclosed by Leistner for isolating the contents of a sample vessel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
